

Powertrain Solutions: Hot Flush Transmission Cooler Flushing System

Maintain Your Transmission Cooler with the Hot Flush System

Introducing the Hot Flush Transmission Cooler Flushing System from Powertrain Solutions—your ultimate solution for cleaning and maintaining transmission coolers. Designed to deliver top performance and reliability, this system ensures your transmission cooler remains debris-free and operates at its best. It is the only transmission cooling system flush machine that Powertrain Solutions endorses.

Key Features

- Patented Flushing Operation^{**}: The system features a computer-controlled valve that completely reverses flow for 3/4 seconds every 3 seconds, ensuring thorough cleaning.
- Primary Filtration System^{**}: Equipped with a 28-micron checkable screen, allowing you to see what's being flushed out of the cooler.
- Back-up Filtration^{**}: Includes a 10-micron reservoir filter to protect the pump.
- Heating Capability^{**}: Heats regular ATF to 190° for optimal cleaning.
- Built-in Flow Meter^{**}: Monitors the flow rate, which ranges between 4 and 9 GPM.
- Clean-out Switch^{**}: Purges the system to maintain cleanliness.
- Automatic Shut-off^{**}: Features a dirty filter auto shut-off for added convenience.
- Pressure and Temperature Gauge^{**}: Provides real-time monitoring of the system's performance.

Important Notice

For any transmission replacements that do not require a new transmission cooler as part of the required installation package that comes in the box with your new transmission from Powertrain Solutions, using the Hot Flush machine is crucial. Transmission cooling system contamination from the previous failure is the leading cause of warranty issues or failure after installing a remanufactured transmission. We want to take care of our customers and ensure your transmission operates at its best.

Testimonials

"If faced with a choice of giving up my scanner or my Hot Flush, I couldn't make that choice."
Kit Lindsay - Lindsay Transmission, Warrensburg, MO (Owner of 4 Hot Flushes)_
